They are already in some states- door to door looking for polymer 80 kits, this is the cracking down on the American Art [knowledge and ability to craft] and right to make a functional gun.

2nd Amendment covers making your own bullets and guns. They have to do this first before they demand your guns.

This is just chest thumping by the police chiefs.

Next week when they see thousands of open carries intermixed with women and children, there isn't an officer alive who'll be dumb enough to try and take those guns.

But stick close together

Regardless of the outcome all 1000 men would be american heroes

DC police have a chance to show their true colors. Maybe there should be a "blue flu" on the 6th and a large majority of cops don't show up. Let the Guard handle the security and dish out equal justice. If not, I don't think I'll shed a tear if multiple cops wind up just caught up in the storm and stomped being mistaken for antifa
